1. was my teacher

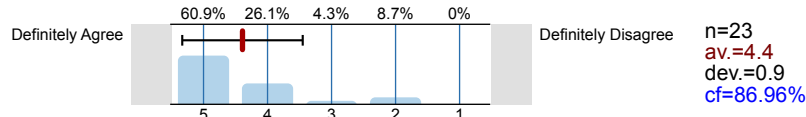

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

- Accessible
- Chloe explains diagrams in a very clear way.
- Class teacher was very useful in explaining the concepts tackled during the lecture. Her explanations were concise and clear.
- Explains everything really well and in detail making sure we understand each step.
- Great at explaining and timing her instructions well within the hour we have for class.
- She always explains the topic very clearly and she is always very open to answer any kind of questions students have.
- She explains concepts we find difficult really well, as she takes the time to break down the problem into smaller chunks. This ensures we understand the entire concept as opposed to just the question. I would say the classes are only good because of how she teaches them, as opposed to the actual structure of the class itself.
- The teacher was extremely effective in deconstructing complex problems and in explaining the methodology behind them. She is also kind of funny.
- The use of graphs to visualise the concept behind each question was particularly helpful.
- Very clear, everything perfectly explained.
- Very good at explaining problem sets and concepts.
- Very good at explaining.

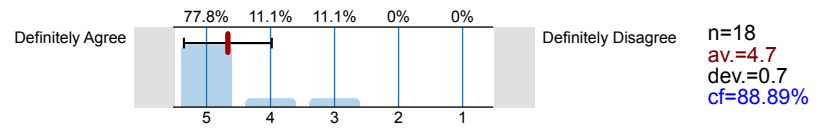

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- None
- Not much time spent on mcqs.
- She always runs over (past 5 too) meaning we never have time to ask question afterwards and I'm often late for my following lecture. I think more problem sets should be marked.

■ Sometimes, we may spend a bit too long on one question, but generally this is not an issue and classes are good.

■ n/a

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
